About Proposal Templates

The following document is a typical business proposal template taken from one of the Proposal Packs available from my favorite proposal tools website.

These stand-alone Proposal Packs were created for just about any type of proposal you can imagine: business proposals, grant proposals, technical proposals, project proposals, sales proposals, and many more. They are stand-alone sets of proposal templates designed using industry standard guidelines. Each Proposal Pack includes a large collection of fully-formatted downloadable MS-Word templates with layout and graphics already done. You just fill in the blanks and easily create business proposals, from 3-pagers to full-blown 100-pagers.

When I first discovered these Proposal Packs, a part of me wanted to weep! Where were these high-quality, real-life proposal templates when I needed them over the years? Had I had access to these Proposal Packs years ago, and some of the related materials carried by ProposalKit.com, I certainly would have saved a lot of time, money, energy, and aggravation. (... and so would have many of my clients).

Here are a few points that impressed me about this sample template:

- A professional looking document created for an actual real-life situation.
- Fully formatted in final submission form with layout and graphics included.
- Includes a very good one-page Executive Summary that focuses on solutions and benefits for the Client.
- Provides an excellent client-focused breakdown of the proposed work into: costs, contract terms, benefits, project management.

Believe me, I know from years of experience writing thousands of different business documents; the most effective way to develop a new one is to work from a model that has already been developed.

Starting from a blank page and trying to reinvent the wheel is just not worth the time and trouble!

Dear Ms. Kenberry:

Thank you for taking the time to talk with me last week. I know that your business office accounting has been a high priority problem for you. I am therefore pleased to propose a cost effective solution that I believe will minimize your in-house burden.

As I explained when we met, we are specialists in Accounting and Payroll services with more than 40 years of experience. We pride ourselves in providing our clients with a professional service, guaranteed accuracy, and the highest level of confidentiality.

The attached cost summary is based upon your current needs and can be adjusted as we customize your services.

I look forward to discussing this project with you in more detail in the near future. Please contact me directly anytime you have additional questions or requests at 425-740-8478 (ext. 905).

Sincerely,

Marty Trasker

Executive Summary

The Objective...

Valley Fitness, Inc is in need of Accounting and Payroll services to take over for an overburdened owner/manager. With limited office staff the accounting and payroll functions have been suffering. Outsourcing these office activities will all the owners/management to focus on other aspects of the business.

The Goals...

Valley Fitness, Inc is a small privately owned organization that now requires professional accounting and payroll services in a cost effective manner.

The goals of Applied Accounting Services are to:

- Provide Valley Fitness with professional accounting and payroll services.
- Provide these services at a lower cost than possible if done by in-house staff.
- Guarantee the on-time delivery of payroll, accounts payable, and other accounting services.

The Solution...

Applied Accounting Services specializes in Full Accounting and Payroll services for mid-size businesses. All staff accountants are CPA’s with additional tax attorney services available through our corporate office location in Seattle, WA.

We will provide Accounting Services to include:

- Daily, Quarterly and Yearly accounting reconciliations;
- Year End Tax statements and summaries;
- Quarterly tax Payment reports;
- Ledger Maintenance;
- Inventory account balancing.

Payroll Services to include:

- Standard pay period check determination and origination;
- Withholding allotments;
- Benefit Summaries.

Accounts Payable Services to include (upon request):

- Payment of all bills owing;
- Budget Plan negotiations;
- Negotiation of favorable terms.
**Client Operations**

Valley Fitness is a privately owned and operated fitness club with three (3) locations currently operating in the Seattle area. Started in 20XX with 5 staff members, the clubs now employ 12 staff members per location, servicing a total client base of approximately 1,500 paid members.

Office accounting and payroll tasks are currently performed on a temporary basis by the owners who took over the responsibility when the fulltime accountant did not return from extended medical leave. This lack of a qualified fulltime accounting and payroll capability has led to numerous problems including: backlog of data entry, poor inventory control, payroll not met on time, and past due tax filings.

Once Applied Accounting Services becomes responsible for all accounting and payroll services, the owners of Valley Fitness will be able to return their focus to the fulltime management of their fitness clubs. The first priority of AAS will be to bring up to date, all accounting, payroll, accounts payable, and tax filings.

Proposal Templates

As I stated earlier, if you have a proposal to develop for any reason, you don’t want to have to do that from scratch. It is always faster, cheaper and better to work from a professionally developed template.
